Diagnostic Test Booking & Report Access – Service Portal Guide (ServiceNow)

Date	19 October 2026
Team ID	
Project Name	Medical Diagnosis Center – Diagnostic Test Center Portal (ServiceNow)
Maximum Marks	4 Marks

Scenario: Discovering the Medical Diagnosis Center portal, booking a diagnostic test with a time slot, getting approval and confirmation, and downloading the report. Persona: a patient who needs a diagnostic test (see Empathy Map).

	Entice – How does a patient become aware of the process?	Enter – What do they experience as they begin?	Engage – In the core moments, what happens?	Exit – What happens as the process finishes?	Extend – What happens after the booking is submitted?
Steps *What does the patient experience?*	• Needs a test after a doctor's advice or for a routine check-up • Learns that the center's Service Portal lets them book online	• Opens the Service Portal home page • Browses the diagnostic test list with description, price and duration	• Selects a test, date and time slot • Fills in patient details and email • Reviews the booking and total amount • Admin approves or rejects the slot	• Clicks Submit • Appointment record is created with an auto-generated appointment number • Approval email is sent when approved	• Appointment is marked Completed after the test • Report is created automatically with findings • Patient receives a report alert and downloads the report
Interactions *Touchpoints, people and places*	• Doctor referral or prescription • Phone call or walk-in to the center (old way) • Link shared by the center	• Web browser on phone or laptop • Service Portal home page • Test selection page	• Book a Test page and slot availability widget • Booking form with auto-populated price • Admin / Lab Manager approval view	• Submit button on the booking form • On-screen confirmation • Approval Notifications email	• My Appointments page • Lab technician and admin • View / Download Reports page • reportsNotifications email
Goals & motivations *"Help me…" / "Help me avoid…"*	• Help me find where to book my test • Help me avoid queues and repeated phone calls	• Help me trust this is the official booking place • Help me see tests and prices quickly	• Help me pick a free slot without clashes • Help me know the total cost before I confirm	• Help me submit without errors • Help me know my booking is confirmed	• Help me track my appointment status • Help me get my report without visiting the center
Positive moments *What feels enjoyable or easy?*	• One official digital place to book tests	• Clear test catalog with price and duration • Easy to find the Book a Test page	• Available slots are visible by date • Test price fills in automatically	• Gets an appointment number immediately • Approval email arrives without chasing	• Report is generated automatically on completion • Patient sees only their own appointments and reports

	Entice – How does a patient become aware of the process?	Enter – What do they experience as they begin?	Engage – In the core moments, what happens?	Exit – What happens as the process finishes?	Extend – What happens after the booking is submitted?
Negative moments *What feels frustrating or slow?*	• Not knowing how to book or whom to call • Busy phone lines at the center	• Unsure which test is needed • Wrong link or having to log in again	• Preferred slot already full • Waiting for admin approval	• Error if a mandatory field is missing • Booking rejected without a clear reason	• Waiting for the report • 10% cancellation charge deducted from the refund
Areas of opportunity *How might we make each step better?*	• Promote the portal link on the center's website and in prescriptions • Share the link by SMS	• Add a search box and test packages • Keep the page fast and mobile friendly	• Suggest alternative slots when one is full • Show cost breakup before submit	• Send an SMS along with the confirmation email • Show the rejection reason on screen	• Integrate an online payment gateway • Add SMS alerts, a doctor portal and a feedback survey
