Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A patient who needs a diagnostic test (blood test, X-ray, thyroid, etc.)	Book a test for a convenient date and time and know the cost before I go	I have to call or visit the center and cannot see which slots are free	There is no single online place showing real-time slot availability and test prices	Frustrated and unsure that my appointment is really confirmed
PS-2	A patient waiting for my test results	Get my diagnostic report quickly and securely	I have to revisit the center or keep asking the staff	Reports are on paper, not linked to my appointment, and I am not notified when they are ready	Anxious and dependent on follow-up calls
PS-3	A lab administrator or lab manager	Approve bookings, track every appointment and handle cancellations and refunds correctly	Records are kept manually, which leads to double bookings and wrong refund amounts	There is no automated workflow, validation or dashboard for appointments	Overloaded and worried about mistakes
